### Nature of Activity:

Enthusiastic volunteers and registered participants for the event “Precursor – Ugadi with Cows” from every walk of life came together to raise awareness and application of Desi Cows on this day. The preparation of seed balls was driven by our Gopal’s core volunteer Sudhakaran ji, who closely observed and directed from the first step of soil preparation to last step of drying them. With the help of as many as thirty volunteers and participants and not to forget those ten odd kids from the ashrama who helped to churn out over 2000 seeds balls well under 3 hours on that day, which is a great accomplishment for everyone were a first timer on making seed balls. The day ended with a Gopooja again performed by Sudhakaran ji.
