

Awareness walk to protect cows

BENGALURU, DHNS: GoPals, a team of professionals united by the common cause of protecting native Indian cows, organised an awareness walk — 'Walk 2 Heal' — in Cubbon Park on Sunday.

To spread the message to the public and work towards the betterment of health, the environment, agriculture and lifestyle, the walk witnessed over 800 participants.

Shreekanthan, managing trustee of GoPals, said it was important to protect desi cows since cattle rearers were largely from the agricultural communities.

Padmashree awardee Dr VR Gowrishankar, IIM Bangalore Prof Mahadevan and Dr S Ahalya, vice-chancellor of Karnataka Sanskrit University were present.
